

There are two sets of evaluations for the Judaism and Christianity course because the course is cross listed with what was Judaic Studies and what is now Jewish Studies. The students who enrolled in the Philosophy course did one set of evaluations and the students who enrolled in the Jewish Studies course did another. I have combined both sets of evaluations into a single PDF document.

## Open-Ended

8

What were the most beneficial aspects of this course? (Please be specific)

(Text/Memo)

- The weekly journals helped with conceptualizing the material and incorporating into my own life and thought processes. It also helped getting feedback about the writing and improving my skills to convey my thought concisely and clearly.
- It helped that we were able to free write the journals. In that way, I was able to expand on the ideas that I found most interesting. The lectures were short but enough for each week! That was great.
- Learning more about Judaism and Christianity and forcing myself to really think and form my own opinions on topics that we learn.
- I enjoyed the recorded lectures
- the journals
- Learning about the history of Judaism and Christianity, how it pertained to my life, and what I can take away from the relationship of the two religions.
- Understanding the foundation of religions from a philosophical and historical viewpoint.
- Course was online but video lectures were useful.

What are your suggestions for improving this course? (Please be specific)

(Text/Memo)

- It would be nice to have more extra credit opportunities.
- The Bart Ehrman lectures were too long and sometimes deviated from the topics we were covering. Perhaps it could be replaced with something more relatable.
- My only suggestion would be to have documentaries specifically to one week as it can be overwhelming trying to watch all the lectures.
- None
- More readings about modern philosophy and how it ties in with these religions would be interesting to me.
- sometimes the amount of material in a week was a bit much.
- I thought the course was great.

## Open-Ended

8

What were the most beneficial aspects of this course? (Please be specific)

(Text/Memo)

- The most beneficial aspects of this course were the lectures and videos. It really helped me to fully grasp the topic and readings.
- - Professor explained all readings and topics that were mentioned and assigned in the week - video lectures were awesome because I prefer learning in-class - amount of readings were appropriate - I really enjoyed this course!!! I think the Professor has a great understanding of material, very wise, and dedicated to her students and their abilities to process information - At first I thought this course was going to be bland and annoying, but it was actually fun to learn and read the materials! - the topic is really interesting - videos and related lectures were engaging and interesting
- It presented a lot of material that was new to me and fostered a desire to learn more about the subject matter.
- The recorded lectures in this class were very informative. Including lectures from guest speakers as well as our weekly lectures from the professor were essential parts of the course for me that let the readings make more sense and allowed me to learn more from the course. Because this topic is on quite a deep topic, having that reinforcement of the material (which I sometimes don't get in online classes, it's usually just written things from the professor) was very beneficial with the material.
- Prompt Feedback on Journals allowed for direction and growth.
- Opening my mind to new ideas and thoughts.
- The video lectures by Bart Ehrman were incredible.

9

What are your suggestions for improving this course? (Please be specific)

(Text/Memo)

- I do not have an suggestions for improvement.
- - the cost of the books was a little more than I expected
- A suggestion I would have would be potentially having less readings but if possible, having less readings that cover the same amount of information. I know that a lot of the material is very deep and it takes, at least for me, a couple of read throughs to really understand and comprehend the material. Because of this, it was sometimes hard to fully understand all the readings because there was so many. This could also be attested to the unusual circumstances of this term, though. With everything going on, it was sometimes hard to hone into so many readings.
- Grades for discussion boards should be updated as they go to allow students to have an accurate representation of their grades.
- N/a
- Philip Carey's video lectures were awful. While the content was good, the man was a bit odd and watching the videos was draining. Perhaps a different professor on the same material?
